

Answers to healthcare questions from Darryl Seres, Conservative Party candidate

1. Our party supports increasing the ability of rural and interior residents to access and equal level of health services, including transportation.
2. The Conservative Party is committed to increasing specialized health services in rural areas by providing local providers the resources they need to make the necessary investments in their communities.
3. I support providing family physicians with the appropriate level of tax credits needed to incentivize them to come to rural areas that need them.
4. Our party is committed to providing rural communities the resources they need to provide proper care at the local level, including through Community Health Centres.
5. I am committed to pushing for continued funding for Community Health Centres.
6. More research is needed to best determine how physicians should be paid at Community Health Centres.
7. The Conservative Party of BC is 100% committed to removing barriers to mental health services and increasing addictions treatment and rehabilitation across the province.
8. Our party is open to all possibilities to improve health services, including private partnerships.
9. I am committed to improving long term care in BC by enabling care workers to earn enough at one facility that they do not need to move around to several facilities, putting themselves and residents in danger.
10. Our party supports P3s in health care when it is determined to be the best option.

Yours sincerely,

Darryl Seres
